

## SES-LINE-SPLIT Datasheet

### DESCRIPTION:

The Sescom LINE-SPLIT is a passive audio distribution device designed to split a single line-level XLR input into six independent line-level outputs with no signal degradation. The LINE-SPLIT features excellent channel-to-channel isolation, low distortion, superior common-mode rejection, and minimal crosstalk, housed in a durable ABS plastic enclosure, making it ideal for use in professional audio installations, recording studios, broadcast, and live event environments.

**Sescom Tech Notes:** It is not recommended to split a microphone level signal to more than two outputs. It is not intended for use with Phantom Powered devices.

### FEATURES:

- High-Quality Neutrik Locking XLR Connectors
- Passive Design Requires No Power
- Lightweight and Durable ABS Plastic Enclosure

### SPECIFICATIONS:

- **Input:** 1
- **Outputs:** 6
- **Dimensions:** 5 x 3 x 1.5 inches

#### Neutrik 3-Pin XLR Connectors:

- **Capacitance Between Contacts:**  $\leq 4$  pF
- **Contact Resistance:**  $\leq 5$  m $\Omega$
- **Dielectric Strength:** 1.5 kVdc
- **Lifetime:** > 1000 mating cycles
- **Locking Device:** Latch lock
