

SES-XLR-RGAB-FS Datasheet

DESCRIPTION:

Sescom's XLR-RGAB-FS is a bidirectional, passive, balanced audio XLR A/B switch that allows switching between one common input and two outputs. It features a foot switch for hands-free switching as well as a toggle switch that acts as a mute switch, disconnecting both A and B channels.

FEATURES:

- Designed to switch between one common input and two outputs with
- High-quality Neutrik locking XLR connectors
- Switch requires no power and is full duplex / bidirectional
- Footswitch-operated allows for hands-free switching
- Built-in toggle "Mute" switch for disconnecting both the A and B signals from the common input/output
- Excellent for use in Studios, PA, talkback switching, and other applications that require hands-free switching

SPECIFICATIONS:

- **Input (I/O):** 1
- **Output (A/B):** 2
- **Dimensions:**
 - **Enclosure:** 2.5" X 4.625" X 1.625"
 - **Overall:** 3" X 5.25" X 2.5"

Neutrik Connectors:

- **Capacitance Between Contacts:** $\leq 4\text{pF}$
- **Contact Resistance:** $\leq 5\text{m}\Omega$
- **Dielectric Strength:** 1.5kVdc
- **Lifetime:** >1000 mating cycles
- **Locking Device:** Latch lock
