

SES-MKP-43 Datasheet

DESCRIPTION:

The Sescom SES-MKP-43 is a compact, passive inline audio level controller that solves a common problem: instrument signal levels that are too hot for a given input or simply need adjustments on the fly without touching an instrument mixer or preamp. It's ideal for direct-box setups, fixed installations, broadcast environments, and live stage rigs where quick, hands-on level control matters.

Sescom Tech Note: Intended for use with instrument level signals. Not compatible with phantom power.

FEATURES:

- Instrument level impedance
- Rugged, Compact, Black-Anodized Aluminum Enclosure
- Optimized to Output Instrument Level
- Easy Plug and Play Setup

SPECIFICATIONS:

- **Dimensions:** 3" x 3" x 1.25"
- **Input Impedance (Ohms):** 100K
- **Input:** 1/4" TRS Jack
- **Output:** 1/4" TRS Jack
